STUDIES

Master of Science (M.Sc.) Mechanical Engineering — 04/2025 – Expected 10/2027
Karlsruhe Institute of Technology
Germany

Specialization: Vehicle Technology, Dynamics and Control
Summary: Pursuing a Master's at KIT with a focus on **Vehicle Technology and Dynamics & Control**, specializing in automotive systems, vehicle dynamics, and control. Gaining hands-on experience in modeling, simulation, testing, and vehicle control to develop high-performance, safe automotive solutions.

Bachelor of Engineering (B.E.) Mechanical Engineering — 08/2019 – 04/2023
St. Joseph's College of Engineering
Chennai, India

Relevant Focus Areas: Manufacturing Technology, Dynamics of Machines, Design of Transmission system, Finite Element Analysis, Automotive Engineering, Strength of Materials for Mechanical Engineers
Thesis: Tribological Behaviour of Wc-Co Reinforced Al6061 Metal Matrix Composite
Final Grade in ECTS: 2.0

PRACTICAL EXPERIENCE

Working Student in "Computer-aided Flow Measurement Technology" — 10/2025 – 11/2025
Institute of Thermal Turbomachinery
Karlsruhe Institute of Technology
Germany

- Built LabVIEW VIs for data acquisition, calibration, and real-time measurement using NI myDAQ.
- Performed sensor calibration and validation for thermocouples, pressure transducers, and IR cameras using regression methods. mass flow (orifice, Pitot, nozzle) and temperature analysis.
- Applied signal processing (FFT, PSD) for frequency analysis, noise filtering, and automated detection.

AMAZON WEB CHAT SUPPORT — 05/2023 – 05/2024
Sutherland
Chennai, India

- Resolved complex customer issues across phone, email, and chat using analytical and problem-solving skills.
- Escalated issues to technical, product, and operations teams for timely resolution.
- Collaborated with cross-functional teams to drive product improvements and optimize user experience.
- Maintained expertise in app functionality and troubleshooting to provide accurate solutions
- Ensured high customer satisfaction and contributed to team strategy and performance improvements.

TRANSMISSION REBUILDER — 11/2019 – 03/2023
St. Joseph's College of Engineering
(Aurelian Racing Team, India)
Chennai, India

- Led the Transmission subsystem in the design and fabrication of an All-Terrain Vehicle (ATV) buggy, enhancing drivetrain performance and efficiency.
- Applied mechanical engineering principles in power transmission,

gear ratio optimization, and torque distribution to improve speed and reliability.

- Implemented powertrain optimization techniques inspired by **F1** and **NASCAR** for maximum output and dynamic stability.
- Gained hands-on experience in **CAD** design, mechanical assembly, testing, and performance validation.
- Strengthened skills in team collaboration, problem-solving, and precision engineering, deepening expertise in vehicle dynamics and automotive systems

INTERNSHIP EXPERIENCE

Internship – Service Department 08/2022
Mercedes-Benz
Chennai, India

- Performed preventive maintenance on multiple vehicle platforms, including AMG models.
- Conducted ECU and TCU diagnostics, fault code analysis, and system troubleshooting.
- Assisted in pneumatic suspension system inspection, assembly, and servicing.
- Applied automotive electronics and mechanical engineering principles to resolve technical issues.

Internship – Manufacturing & HVAC Systems 10/2021 - 11/2021
HANON Systems
Chennai, India

- Gained technical exposure to automotive HVAC systems for OEMs including Hyundai, Kia, and Ford.
- Studied manufacturing processes: sheet metal cutting, forming, punching, drilling, shearing, and assembly line operations (cleaning, powder coating, copper tube joining).
- Learned vibration arrestment principles to improve NVH performance and ride comfort.
- Observed advanced manufacturing technologies, including injection moulding, and assisted in quality control to enhance product reliability.

Design Internship 08/2021 – 09/2021
CADDAM Technology
Chennai, India

- Developed complex product designs as part of an intensive design-focused internship.
- Designed a home appliance product for reputed brands Philips and Vetus using CAD design tools.
- Gained hands-on experience with design software, product development workflows, and design thinking methodologies.
- Built a strong foundation in innovative design, visualization, and problem-solving for engineering applications.

SCHOOL

Senior Secondary School 06/2018-04/2019
Jawahar Matric Higher Secondary School
Neyveli India

Higher Secondary School (HSC) with specialization in Computer Science and Mathematics; scored 73.17%, building strong analytical and problem-solving skills.

TECHNICAL SKILLS

Software Skills	Solidworks Modelling	Good Knowledge
	Matlab	Good Knowledge
	Ansys	Good Knowledge
	Labview	Good Knowledge
	Ms Office Application	Very Good Knowledge
	Arduino	Good Knowledge
	C programming	Good Knowledge

KNOWLEDGES

Language	English	C1
	German	A1
	Tamil	C2

CERTIFICATION

- Certificate of participation from **BAJA SAEINDIA** under the aegis of Chitkara University.
- Participating in webinar on "**Latest Research in Nano - Composites, Computational Physics**".
- Successfully completed Diagnostics application of Radiation organized by Department of Science in St. **Joseph's college of Engineering**.

Karlsruhe, 02-02-2026
